An assignment of the above-identified application from the inventors, Kenneth L. Moore and Shirley H. Moore, was made to the Assignees, and such assignment has been recorded at Reel 012120, Frames 0770 on August 22, 2001.

Assignee hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of any patent to issue from U.S. Application Serial No. 10/124,513. Assignee does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of any patent to issue from U.S. Application Serial No. 10/124,513 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR Section 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term.
